

## Why GITHUB.COM?

A friend of mine recommended it for all coding and stuff, but I am in middle of learning so using it as a Cloud, A Database where I could upload something and visit the site from anywhere in the near future. so basically like a Time-Capsule. And well there isn't any harm in trying something new and this would be helpful in future though...

After all,

" NOTHING COMFORTS ANXIETY LIKE  
A LIVING NOSTALGIA." - neo
